A full of mystery surrounded the finding of the body of a composited body of a man in the woods near the home of a prominent farmer of the Mulberry Community in Autauga County, Sunday afternoon. The remains were identified as the body of a man who had been reported missing. The investigation revealed that the body had been found by a passing motorist who reported it to the sheriff's office. The county coroner was immediately notified and the body was taken to the county morgue for further examination.

A grave digger, who had been called to the scene, reported that the grave was covered with a thick layer of dirt. He said that the body had been buried in a shallow grave and that the dirt had been disturbed by the wind. He described the body as being decomposed and that the face was covered with mud.

The coroner's report indicated that the cause of death was asphyxiation due to suffocation. The body was later identified as a missing man who had been reported missing several days prior to the discovery of the body. The coroner's report stated that the man had been strangled.

A witness, who had been walking in the area, reported seeing a man walking in the woods with a shovel. The man was later identified as the son of the farmer who had been found dead. The son was arrested and charged with murder.
