10/26/12: The Lightening Thief - Rick Riordan

There are currently nine books in this serious for young adults, or YA, as it is known in the library world. I have previously read the first five, but decided to just reread the set. SO I will not post them all, suffice it to say I will just go through them. They make great reading for kids, down to earth characters, vague plausibility that this might happen to you, and a GREAT lesson in Greek, and later, Roman mythology, one of those weird things I like to know about and want to actually study
